SUMMARY

A passionate and self-driven Flutter developer seeking an internship opportunity to apply and grow my mobile development skills. I have hands-on experience building and maintaining cross-platform apps using Flutter and Firebase. Eager to contribute to a dynamic development team and strengthen my professional career.

PROJECTS

Farm to Table – Final Year Defense Project — Jul 2024 – Dec 2024

Role: Solo Developer | **Tools:** Flutter, Firebase

A mobile platform that connects farmers directly with consumers, bypassing intermediaries to ensure fair pricing, fresh produce, and efficient supply chains.

Key Contributions:

- Developed two user roles (Farmer & Consumer) with role-based features.
- Integrated Firebase Authentication with Gmail login and OTP-based phone verification during first booking.
- Designed and implemented real-time inventory management using Firestore.
- A cross-platform app enabling direct farmer-to-consumer sales to eliminate middlemen and promote fair pricing.
- Integrated push notifications (Firebase Cloud Messaging).
- Implemented full Bengali-English multilingual support.
- Optimized image loading and caching using Firebase Storage.

MAINTENANCE

VromonBuzz – Tourism App (Startup) — Duration: 2022 – 2023

VromonBuzz was a tourism startup providing travel guides, hotel/transport listings, and tour packages.

Responsibilities:

- Maintained and debugged the existing Flutter app.
- Fixed production bugs and improved UI/UX responsiveness.
- Uploaded updated APKs to the Play Store.
